Learning Summary

MAKESH K (Student ID: 54633)

has completed the following course

" Python Course in Tamil : Beginner to Advance Masterclass "

- ▶ Course Segementation: **Development > Programming Languages > Python**
- ▶ Duration: **5 hours 13 minutes**
- ▶ Level: **Beginner**
- ▶ No. of Lessons: **48**
- ▶ Issue Date: **23rd July 2021**

Course Syllabus

▶ Basic Course

- python env setup class 2
- python ide class 3
- python hello world class 4
- python datatypes class 5
- python comments class 6
- python if else class 7
- python for loop class 8
- python for loop theory class 9
- python if else theory
- python for loop increment class 11
- python string theory class 12
- python string program class 13

▶ Intermediate Course

- python list theory 14
- python list program 15
- python tuples theory 16
- python tuples program 17
- python dict theory 18
- python dictionary program 19
- python set theory 20
- python set program 21
- Python collections comparison 22
- python functions theory 23
- python functions program 24
- python exception 25
- python exception program 26
- python custom exception program 27
- what is inheritance python 32
- python inheritance program 33
- python inheritance part 2

- python access private members 35

▶ Advanced Course

- python file operations
- python file operations program 37
- python file operation part 2 38
- python db theory 39
- pythobn db practical part 1 40
- python db practical part 2 41
- python db practical part 42
- python abstract class 43
- python abstract class program 44
- Python MySQL Database Practical [Class - 45]
- Python Date & Time [Class - 46]
- Python Regex Theory [Class - 47]
- Python Regex Practical Program [Class - 48]
- Python Iterator [Class - 49]
- Python Decorator [Class - 50]
- Python Decorator Program [Class - 51]
- Python Map & Zip Theory [Class - 52]
- Python Map & Zip Program [Class - 53]
